ABOUT US

The mission of NAATP is to provide leadership, advocacy, training, and member support services to ensure the availability and highest quality of addiction treatment.

NAATP is a nonprofit professional society that represents hundreds of not-for-profit and for-profit addiction treatment providers who offer critical services along the full continuum of care, from intervention, transportation, private therapy, outpatient care, hospitalization, residential treatment, and continuing/aftercare. We support our members by providing clinical and operational resources as well as law and policy advocacy. NAATP’s service as a convening body brings the industry together to promote collegiality and the dissemination of best practices.

NAATP’s leadership is essential. The addiction treatment industry faces complex issues, such as insurance utilization, parity enforcement, changing treatment therapies, and ethics and professionalism violations. Addiction Treatment Providers cannot operate effectively in isolation. Nor will the addiction service provider field thrive separate and divided. Professions evolve and succeed when their members communicate, collaborate, develop standards, and advocate together through a professional society. NAATP fills this role.
